

## **RECENT MAJOR UNIVERSITY GRANTS AND CONTRACTS: JEFF LOUX**

### **2013-2015 California Energy Commission: California Center for Sustainable Communities at UCLA**

Three year grant to be part of a three university consortium (UCLA, UCB and UCD) to develop tools, techniques and research findings to assist local and regional communities and governments in developing sustainable community's strategies.

Total Award: \$200,000

Principal Investigators: Jeff Loux and Julia Johnston (active)

### **2009-2015 Bay Foundation of Morro Bay and the Central Coast Regional Water Quality Control Board**

Multi-year, renewable grant award to conduct education, outreach and professional consultation services to address storm water management issues throughout the Central Coast of California. As part of the Healthy Watersheds program, the project develops a web site, training sessions, technical and design materials, conducts meetings and workshops, and develops proto-type Low Impact Development designs, manuals, ordinances and policies to reduce hydro-modification, improve non-point source urban water pollution control, and support sustainable communities planning and implementation.

Total award: \$400,000

Principal Investigator: Jeff Loux

2009-2015 (active)

### **2002-2016 California State Water Resources Control Board:**

Multi-year renewed grant to develop courses, symposia, conferences, on line education, and various types of training for the State Water Board and the 9 Regional Boards in water quality planning, regulation, technical activities, leadership and collaboration skills, water rights and other topics. Over 300 training events, seminars, and classes have been created and delivered ranging from technical classes on low impact development and innovative storm water design to management courses such as interest-based collaboration and public involvement. Audience sizes range from 10 to 300; the base grant is \$700,000-900,000 per year, with occasional augmentations.

Cumulative total \$9 million since 2002

Principal Investigator: Jeff Loux

2002-2016 (active)

### **2013-2016 California Department of Transportation**

A series of contracts to develop curriculum and conduct training sessions on Community Participation for Transportation Planners, Urban Design and Place-Making, Sustainable Land Use Planning, Planning in California, Transit-Oriented Development, Multi-Modal Transportation Planning, and related courses for various categories of staff and management. We will develop over 50 classes for Caltrans under these contracts. Dr. Loux is an instructor for many of these courses.

Cumulative total \$300,000

Principal Investigator: Jeff Loux (active)

### **2014-2015 Local Government Commission**

A grant for reviewing and renewing the Awhanhee Water Principles to better reflect today's

complex water policy environment and address storm water management issues.  
Total \$10,000; Principal Investigator: Jeff Loux (active)

**2012-2014 California Department of Water Resources**

Contract for curriculum development and training delivery for a series of three-day courses on environmental impact assessment and the California Environmental Quality Act as it relates to water projects.

\$80,000; Principal Investigator: Jeff Loux (active)

**2014-2016 California Air Resources Board**

Contract to develop curriculum and send a series of six trained instructors to 129 venues across the U.S. to teach transportation professionals about the complex regulatory issues and requirements of California's trucking industry.

\$499,000 Principal Investigator: Jeff Loux (active)

**2014-2015 Chilean National Government, Ministry of the Economy: Clean Production Council**

Grant to conduct training, review and revise community dialogue and conflict resolution protocols, and address in depth case studies of various water related pollution cases, and hydro-related community involvement disputes.

\$18,000; Co-PI's: Dr. Tara Zagofsky and Dr. Jeff Loux (active)

**2013-2014 West Sacramento Flood Control Agency and the Westside Coordinating Committee**

Contract to investigate flood governance on the Sacramento River and Yolo Bypass system, and recommend improved governance structures and procedures to modernize the flood management response in Yolo County.

\$42,000 PI: Jeff Loux (active)

**2013-2014 Yolo County Airport Land Use Dispute**

Contract to provide facilitation and dispute resolution services for the Yolo County airport, and its conflicts over land use, noise, economic development and flooding with surrounding neighbors.

\$26,000 PI: Jeff Loux (active)
